

**BECOMING CATHOLIC** is an adult formation program leading to initiation into the Catholic Church. During a program of about 14 weeks, participants read and view materials we provide, spend time in prayer and reflection, and journal weekly. On Sunday from 9:40-10:50am, the group meets with the program leaders to discuss assignments, pose questions, and learn more about the Catholic faith. Depending on their background and faith history, participants may be fully accepted into the Catholic Church at the end of a 14-week period. Others may continue a customized plan of formation beyond that period.

We also invite confirmed Catholics to participate as a way of learning and reviewing more about their faith. They may come for their own continuing formation as Catholics and, if they wish, to support those who want to become Catholics as mentors and sponsors, provide hospitality and other support. We are always happy to grow our team!

# BECOMING CATHOLIC

## Testimonials

This is a journey worth taking. The POP community has embraced my family and me in the most welcoming and sincere way. I have grown to understand the Catholic Church as an inclusive and diverse place of worship.

-John

Joining Becoming Catholic was one of the best decisions I've made. Well-organized, meaningful, personalized, and fulfilling. I looked forward to the classes and discussions each week and felt a void when they ended. Absolutely recommended.

-Jennifer

Becoming Catholic was a wonderful opportunity for me to finally take the step into Catholicism that I had desired for years. As a busy resident physician, the traditional RCIA program wasn't an option. Prince of Peace welcomed us with open arms and developed the perfect program for me to finally join my wife and fellow Prince of Peace parishioners in the Catholic faith.

-Dylan

I likely would have never become open to the Catholic Church if I hadn't joined this program, taught from a non-judgmental perspective and highlighting concerns I had about becoming Catholic.

-Justin
